

Australasia's only validated provider

GUIDE STEPS

If **DDN** is required for placement design with **coDiagnostiX™**

- 1 } Please ensure ALL impression/models are provided.
- 2 } Please ensure ALL CT - SCAN files are provided. (*If all CT- SCAN files are not received within 3 weeks of the impression provided we will require a new impression due to possible fit issues).
- 3 } Please provide ALL implant system information and drill sleeves. If drill sleeves are not provided we will order them for you.
- 4 } Please provide the ACTUAL insert date, as we require 7 days to manufacture once ALL information is received.
- 5 } Please ensure the 'Design Conformation Document' is signed online and sent back to **DDN**.

**Disclaimer: Please note DDN will only start production once all the correct and relevant information is received.*
